The global OMCE JO Conical Steel Drum portfolio:

OMCE Jordan Conical Steel Drum

The new global player

There are many reasons to choose OMCE Jordan packaging. You may opt for OMCE Jordan because of our specific expertise as the internationally leading provider of superior metal drums. Or you may select OMCE Jordan for our seamless product spectrum that provides the right product to meet every need. Or perhaps because of our network of branch offices in major industrial countries of the world. But probably it is all of these reasons combined that makes it so easy for our international customers from the chemical, petrochemical, food and pharmaceutical industries to choose OMCE Jordan.

OMCE JORDAN

Conical Steel Drum

time proven packaging made of steel.

OMCE Jordan Conical Steel Drums - absolute security, tested and proven a million times around the world, conical steel drums are ideally suited for transport of pastes, purees, juices and concentrates.

- **Exterior surface:** anti rust coating in the color of your choice, one plain color - optional screen printing
- Stackable up to 6 drums high
- Special designs available upon request

Sustainability

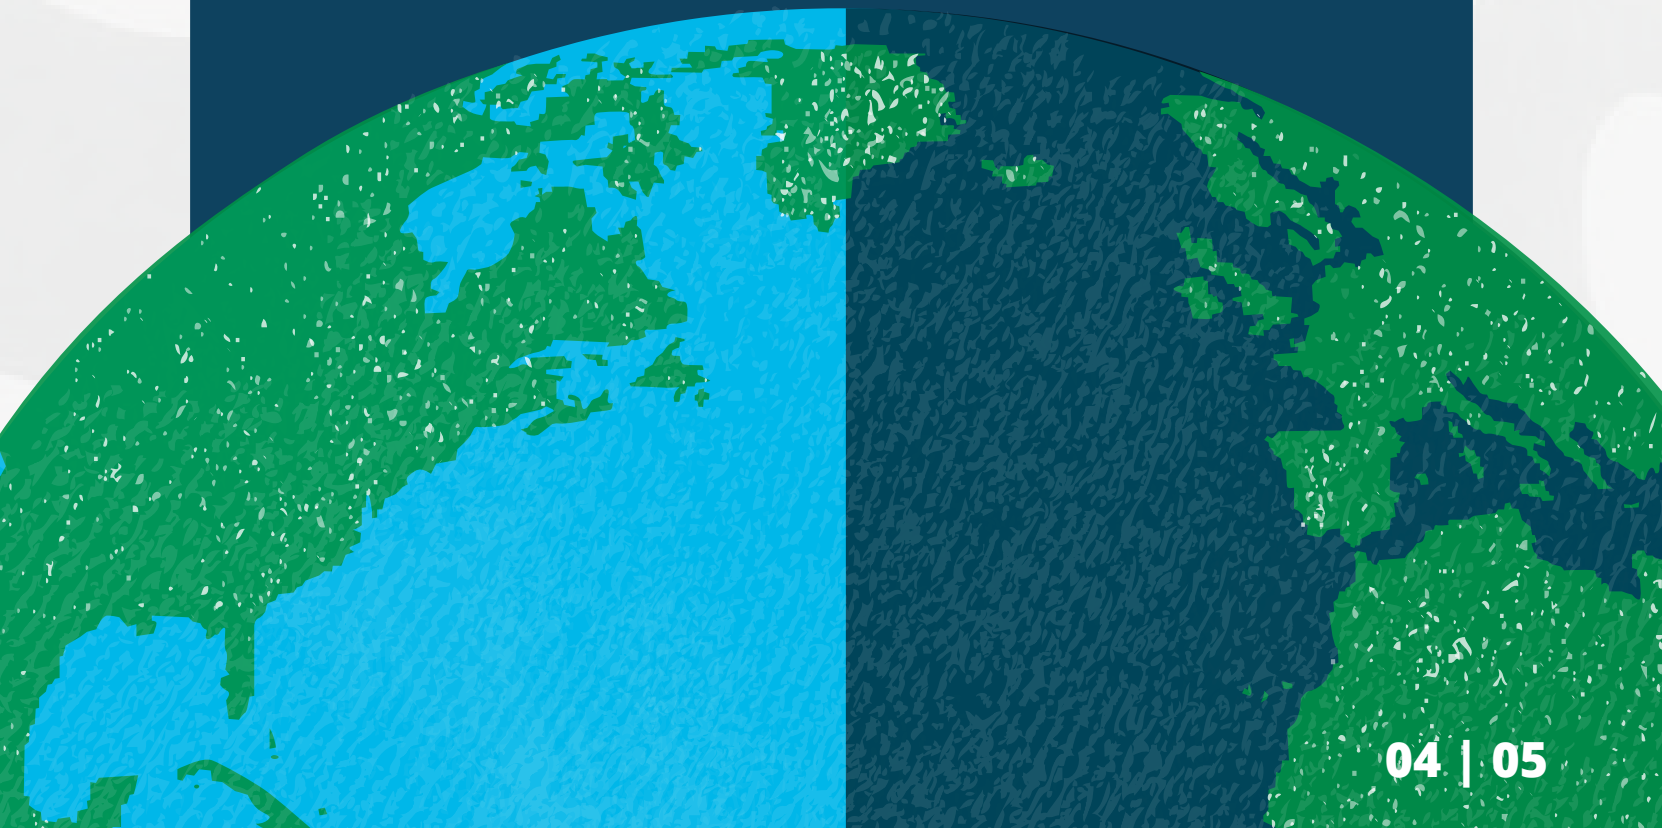

Reducing our carbon footprint

As a global manufacturer, it is our obligation to understand and work to minimize our environmental impact. Whether in our operations or along our supply chain, our sustainability agenda works to create sustainable value for our customers.

OMCE Jordan has taken various steps to be 100% at par with their environmental protection duty as a leading manufacturer in the world of metal packaging. Its mission is to lessen the implications its products have on the environment. Furthermore, OMCE Jordan is not only turning into solar power to reduce its environmental impact, but has also managed to reduce industrial pollution and conserve scarce water and energy resources.

We take our responsibility towards environmental stands and regulations seriously and implement systems to manage our obligation.

Safety & Originality

The task of our steel drums is the safe transport of filling products while at the same time protecting the original quality until the product is needed. To achieve this we use the highest safety standard and intelligent product and process solutions.
